CAREER OBJECTIVE

Motivated Full Stack Java Developer (2025 graduate) with hands-on experience in building web applications using Java, Spring Boot, React.js and MySQL. Seeking an entry-level Software Developer role to apply full stack development skills and contribute to real-world projects.

EDUCATION

Mailam Engineering College — Anna University | B.Tech - Information Technology | CGPA: 8.4 | 2021–2025

Govt. Model Girls Higher Secondary School | HSC: 84% | SSLC: 83%

SKILLS

Languages: Java, JavaScript, HTML5, CSS

Frameworks & Libraries: Spring Boot, Spring Data JPA, Hibernate, React.js, Bootstrap

Database: MySQL

Tools: Postman, Git, GitHub, IntelliJ IDEA, VS Code, MySQL Workbench

Concepts: REST API, CRUD Operations, CORS, JPA, OOP, MVC Architecture

Soft Skills: Communication, Adaptability, Prioritization, Problem Solving

WORK EXPERIENCE

Process Associate — Prompt Personnel Pvt. Ltd. (Sutherland Global Services) | Apr 2026 – Present

- Handling customer queries and providing accurate information in a non-voice BPO process with high attention to detail
- Coordinating with team members to ensure smooth process flow and timely completion of assigned tasks
- Consistently meeting performance targets and deadlines in a fast-paced, process-driven environment
- Developed strong communication, adaptability and multitasking skills while working in a professional corporate setting

PROJECTS

PATIENT APPOINTMENT BOOKING SYSTEM — FULL STACK (JAVA + REACT.JS)

- Developed a full stack web application with separate patient and admin modules
- Built 10+ REST APIs using Java, Spring Boot and Spring Data JPA for doctor management, patient registration, login and appointment booking
- Designed MySQL database with 3 relational tables — users, doctors and appointments with foreign key constraints
- Implemented admin dashboard with appointment confirmation, cancellation and doctor management features
- Connected React.js frontend to Spring Boot backend using Axios with CORS configuration

Tech Stack: Java, Spring Boot, Spring Data JPA, React.js, MySQL, REST API | GitHub Link

MEMORY CARD FLIP GAME — REACT.JS

- Built an interactive memory card game with 16 cards (8 emoji pairs) using React.js
- Implemented card flip logic, match detection, timer and move counter using useState and useEffect hooks
- Added win screen with final score display, restart functionality and smooth flip animations
- Deployed live on GitHub Pages for public access

Tech Stack: React.js, JavaScript, CSS, GitHub Pages | Live Demo

QUIZ APPLICATION — FULL STACK (SPRING BOOT)

- Built a full stack quiz app with user authentication, dynamic quiz creation and automated score evaluation
- Designed RESTful APIs for user management, quiz, questions and result tracking
- Built JPA entity models with relational mappings and implemented leaderboard feature

Tech Stack: Java, Spring Boot, MySQL, HTML, CSS, JavaScript | GitHub Link

BOOK FINDER — REACT.JS

- Developed a responsive Book Finder app integrating Open Library API to search books by title, author and genre
- Implemented dark/light mode toggle, loading indicators and error handling for smooth user experience

Tech Stack: React.js, Vite, Open Library API, CSS | Live Demo

LOAN MANAGEMENT SYSTEM — MYSQL

- Built a MySQL-based loan management system with customer grade classification and automated interest calculation
- Implemented BEFORE/AFTER INSERT triggers, stored procedures and complex JOIN queries for detailed analytical reports

Tech Stack: MySQL, SQL Queries, Triggers, Stored Procedures | GitHub Link

CERTIFICATIONS & TRAINING

Full Stack Java Development — Besant Technologies

- Completed comprehensive 6-month course covering Core & Advanced Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript and React.js

Web Designing Intern — GS Informatics

- Built a responsive Resume webpage using HTML, CSS and Bootstrap framework
